Zip Water
Commercial range

It's water. Refreshed.

It’s water, refreshed.

Installed across Britain’s commercial spaces – whether small establishments or large organisations – Zip’s reputation in the water appliance market is second to none.

From the HydroTap’s filtered boiling, chilled and sparkling water hydrating staff in the Gherkin, to the InLine delivering instantaneous heated water in the Northern General Hospital, Zip’s comprehensive range of water delivery products have been both enjoyed and utilised across a wide range of markets since 1947.

Recognised for our innovation worldwide, over those 50 years we’ve been dedicated to advancing and perfecting our technology, and today are proud to bring you a product range that’s not only of the highest quality, but is safe, energy-efficient, easy to use and highly functional.

That dedication also extends over to our service. Committed to offering a hassle-free water solution, our nationwide fleet of trained service technicians are available to tend to your product – from filter replacement to parts and general maintenance – ensuring your Zip product reliably delivers the best quality water possible.

[1]'Ambient' describes the temperature of the water where there is no additional heating or chilling to the incoming cold water supply. You may need to run the tap for a while to get it to a suitable temperature.

The Zip Commercial Range

Hydroboil

The Zip Hydroboil and Hydroboil Plus deliver energy efficiency with every cup

Hydroboil

Advanced boiling water technology and electronic temperature control delivers boiling water heated to within 0.2ºC of set temperature. Enjoy no waiting time with this convenient, reliable and safe wall-mounted instant boiling water unit.

Boiling

Hydroboil Plus

With all the benefits of the HydroBoil, the HydroBoil Plus also features energy-saving Power Pulse TM technology, inactivity and low light sleep modes and is equipped with a two-way safety tap and safety lock.

Service & aftercare

With a solid reputation established among both small and large organisations over the past 50 years, it's clear to see that as committed as we are to developing outstanding products, we're as equally committed to delivering outstanding service levels.

Our dedicated team is on-hand to answer any queries, and should a call-out be required, we'll work with you to find a convenient time for a member of our team to visit.

We have a fully trained fleet of 68 Zip-employed engineers situated across the UK; and with at least one based in every county in England, help is never too far away.

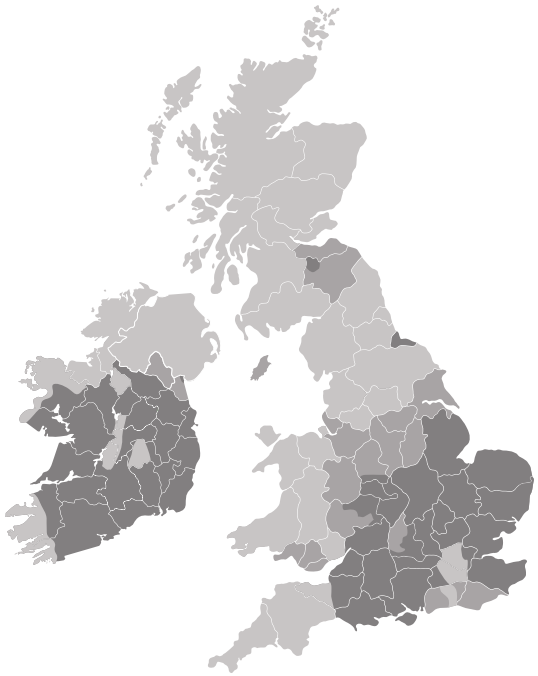
Your warranty

Our standard warranty cover is 12 months.

G4 HydroTaps are covered by a 2-year on site parts and labour with the boiling chamber covered for an additional 3 years.
We also offer a 2-year full parts and labour warranty on our Hydroboil and Hydroboil Plus.

Manufacturing standards

With full WRAS approval, RoHS compliance and CE endorsement across all of the products featured, Zip's manufacturing standards rank among the highest within the instant boiling water industry worldwide. Ensuring our products are safe, energy efficient and easy to use, we set the bar high.



High performance scale filtration system

The Zip Professional scale filtration system has been specially developed for businesses and organisations operating HydroTaps in hard water areas. Highly recommended when the hardness level is above 180ppm, the triple action filtration system prevents limescale build up, increases the lifespan and improves the performance of your Zip product.

Benefits include:

- Buffered Ion exchange resin to reduce water hardness by keeping pH reduction to a minimum
- Carbon block to improve bad taste and odour
- High efficiency filtration to remove particulate matter

HydroCare®

For that ultimate peace of mind, Zip's all-encompassing HydroCare package eliminates the stress that maintenance typically carries.

With everything your establishment needs to enjoy hassle-free, pure-tasting water, HydroCare ensures your HydroTap not only remains in perfect condition,
but operates at peak performance – and all for just a little more that you would pay to change the filter yourself.

Zip HydroCare:

- Gold, Silver and Bronze packages available
- Full breakdown cover, including parts and labour
- An annual inspection by one of our fully qualified Zip engineers, followed by any necessary adjustments if required
- Sanitation of cold drinking water units in accordance with EU recommendations
- Filter replacement every 6 or tailored to suit your business needs
- Our Gold package includes fully managed scale solutions, bespoke to business requirements and location
